

our story

Ali and Matt have been together for over 12 years. They originally met in High School and have been inseparable ever since. Matt knew Ali was the one from the start. And Ali couldn't help but feel the same about him. Even though they went to different colleges, their love for one another remained.

Three years into their relationship Matt decided to ask for Ali's hand in marriage. She said yes of course. Seven months later they were married. A little over a year after their marriage they gave birth to a baby boy, Carter, who is now 7 years old.

Together they love to go on road trips to the beach, gather with their friends and family, explore new cities, and challenge themselves with something new each year. At the same time they also appreciate little things like cool fall nights by the fire, coffee dates, taking their two doodle dogs for walks, pool days, going to the movies, family game nights, and trying ultimately to treat each other with love and respect. We are ready to give our unconditional love to another child and expand our family through the miracle of adoption!

HI I'M *Matt*

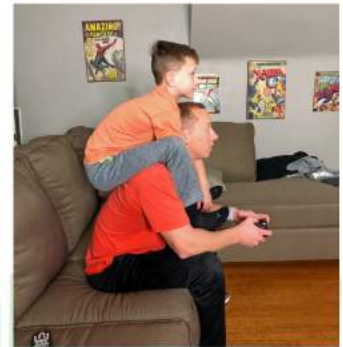

Matt grew up in a small town in Kentucky. He has two brothers and is very close to them. He is now an Uncle to two nieces. Matt's mother has always taught the importance of family and brotherly love. Matt loves to weight lift and be active. The outdoors are a big part of his family. His favorite foods include steak and anything with sugar in it. He graduated high school in 2007 and went on to our community college to study criminal justice.

What Ali loves about him:

Matt is a wonderful husband and father. We work, play, and laugh together daily. He is my rock and he never ceases to amaze me. He's compassionate yet strong. He's loyal and honest. He is an amazing father and our son adores him. If I ever doubt myself or get discouraged, he is always there. We always strive to fulfill each other's needs. I love this man and can't imagine my life without him. The bond we share is truly a gift.

HI I'M *Ali*

Ali grew up in a small town in Kentucky. She has one biological sister and two step-sisters. She is now an Aunt to two nephews and one niece. Family has always been very important to her, and regardless of where she's been in life she keeps them as a top priority. Her favorite time of year is Fall. She loves graphic designing and being creative while cuddling up with a blanket and cup of coffee. Her favorite foods include pasta, any kind of fruit, and cheesecake. She graduated high school in 2008 and went on to Campbellsville University to study Psychology.

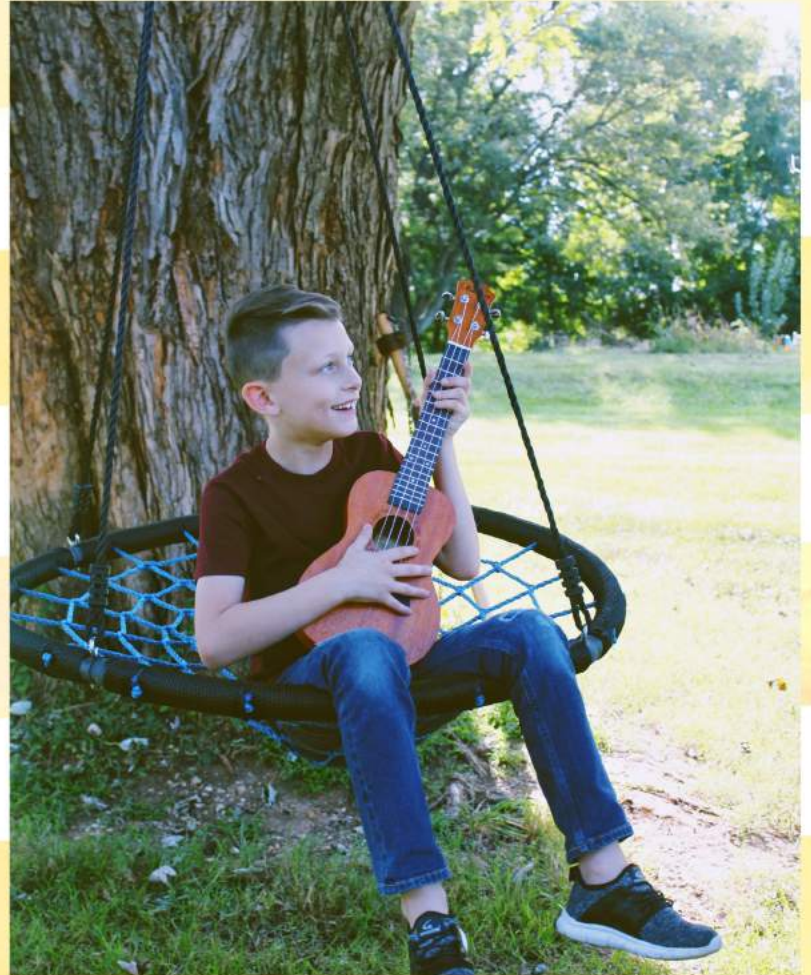

What Matt loves about her:

Ali is my partner in life. I love her very much, I feel that she is one of the most generous, caring, loving, and thoughtful people I know. She makes me a better person and continually motivates me through our life. Ali is always willing to lend a helping hand. More than my wife, Ali is my best friend. I feel very fortunate to be married to her and have her in my life. She goes above and beyond as a mother to make our son feel loved. There is no doubt she will be even better as a mother of two, we make an outstanding team as parents.

HI I'M *Carter*

Carter is 7 years old and is in the 2nd grade. He is very goofy and never fails to make us belly laugh. He loves math and animal facts. He spends most of his time at home playing outside or with his two goldendoodles. He has been asking for a sibling since he was old enough to talk and is very excited to be adding to their family. He is very compassionate and sweet and they know he will be the best big brother.

home

We bought our home 8 years ago as a fixer-upper and completely gutted it and made it our own. Our home is two story and has 3 bedrooms. Our favorite place in our house is our large family room because it is set up for family fun! We live in a family oriented neighborhood, with playgrounds and the elementary school is less than a mile from our home. There are many amusements and adventures within driving distance. We have an annual backyard bash that all of our friends and family attend. We have a large backyard with a tree swing, trampoline and fire pit that gets used most of the fall during family get togethers.

We're Truly Blessed with an Overabundance of Family Support

Matt's family is very close-knit and love to get together as much as possible. Matt's mom, Cynthia is a huge support for both, Matt and Ali. Ali looks up to her and considers her a second mom. Carter loves to go visit "Granny's house". He also loves spending time with his cousins. Matt's two brothers, Lucas and Dallas, live close. Lucas has two older daughters that Carter adores. We frequently see his brothers and mom whether it is getting together for a birthday, swimming at his mom's pool, or just stopping by to catch up.

Ali's family doesn't get to see each other as often as they would like. Her mom passed away when Ali was just 20 years old. Ali's sister, Brittany who has 3 children of her own. Carter loves hanging out with his cousins Brittany lives about 30 minutes away with her fiancé and their 7 total combined children.

WE ARE BLESSED WITH FRIENDS
THAT FEEL LIKE *family*

friends

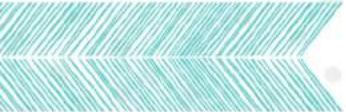

We are so lucky to have both our families close by, but even luckier to have such close relationships with all of them. We have many family traditions from opening Christmas pj's on Christmas Eve with family to spending the day on our back deck watching our little town's annual festival. Regardless of the tradition, whether big or small, we love any and all time spent with our families. We are blessed with great friends who feel like family. Most of our friends have young growing families like us. Our favorite party with our closest friends is our annual backyard party, where we have a yard full of friends and family playing games like volleyball and corn hole. This year 26 kids came and boy was it fun. Our Christian Faith has always been an important part of our life and has helped us through our struggles with infertility. Church is a place of comfort for our family. We love picking up Carter from Sunday school and hearing him talk about what he learned.
