

JEN & BRIAN

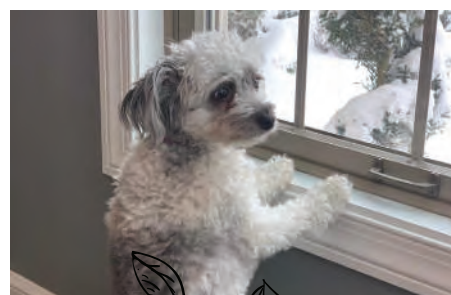

completing our family

ABOUT US

We have been best friends for over 10 years and got married in Central Park in New York about four years ago. We have both been in the medical field for over 20 years and are fortunate to have our own company, which provides financial stability and allows our time to be flexible with family activities. We have a wonderful blended family of eight kids (some are adults). Brian brought five amazing kids to the family, and two of them are adopted. Jen brought three amazing kids to the family, and we couldn't be more proud of how close they are to each other. Everyone who knows us speaks about how much we love children and how important family is to us. We are a family built by grace, and our goal is that the kids feel this daily.

OUR HOME & PET

We live in an eight-bedroom, nine-bathroom home in a safe, beautiful gated community in Ohio. The nursery is directly adjacent to the master bedroom. There are endless activities for the entire family, including a playground, an exercise facility with indoor basketball courts, a golf course, tennis courts, and a community pool. On a typical day in the neighborhood, you will see many families walking and running or on bicycles or golf carts. Our school system is terrific. We are in close proximity to airports, making it convenient to travel, which is one of our favorite things to do as a family. Our family has one cute little dog. She is a mini Aussiedoodle named Dasha.

WHAT LED US TO ADOPTION

Adoption has been on our hearts for a very long time. As a family, we have so much love to share, and it felt like the logical next step. We feel fortunate to already have two adopted children who will be excellent support systems for your child. It was extra special talking with our two adopted daughters about adopting again. Our children are all overjoyed about adding another sibling to our family and cannot wait to show him or her the ropes. We can't wait to tell you how each sibling reacted to the news!

Sport: Basketball

Tradition: Thanksgiving Day dinner with family

Musical Group: Nelly

Movie: The Godfather

Dream Vacation: Alaska fishing trip

TV Show: Modern Family

Subject in School: Science

Book: The Power of Positive Thinking

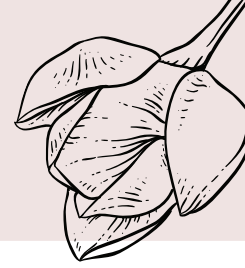

our family & *TRADITIONS*

We cannot wait to introduce the baby to our entire family. We have a family lake house about 20 minutes from home, and we spend an extraordinary amount of time there in the summer boating, tubing, kayaking, and swimming. Often both of our extended families will be gathered there on a weekend to celebrate birthdays. The kids love when their cousins are there too, and they have sleepovers at the lake house. The Fourth of July at the lake is so much fun; we take the boats out to watch fireworks.

Brian has one brother, who also works in our company, and he and his wife have four kids. Brian's parents live about an hour away, but we get to see them often, and they are very involved in the kids' lives and activities. Jen has two brothers, and they have four adult children who have children of their own. Jen's mom lives in a condo about two minutes from the house, which makes it convenient for her to pop over and help in any way needed. The kids look forward to her coming over and baking cookies with them or her making them a home-cooked meal of chicken and dumplings.

DEAR EXPECTANT MOTHER

Hello!

We recognize we are not the typical family pursuing adoption, but if you are looking for a large family full of fun and love to welcome your baby, we would be honored for you to consider us. We look forward to sharing a look into our home and lives to give you a better picture of who we are as a family!

The love we have is shown in many ways, including activities like cooking, playing games, watching movies, and the family favorite, which is traveling to new places! Your baby will have the support of eight siblings, parents, and extended family dedicated to watching over him or her. Our home is known by many as the place people feel happy, safe, and secure. We cannot wait to show this new little one how to shoot a basketball, swim in the pool, catch a fish, and make smores on a cool night with family and friends.

We promise to love, guide, and provide endless opportunities to your baby. From being there during scary times with hugs and kisses to providing a great education to traveling the world, we will walk alongside him or her. We are a warm and loving family, and we often express love and admiration for our adopted children's birth mothers. We consider them brave heroes to our children and family. We are very excited to share our love, home, and knowledge with this wonderful blessing from you.

With love and admiration,
Brian and Jen
