

# DAVID & LISA

*Family Profile*

---

## GRATITUDE

- - - - X

Thank you so much for considering us to be the adoptive parents of your child. We admire you for your love for your child and are deeply touched by your courage and strength as you make this adoption plan for your baby.

We were blessed with our biological son 4 years ago but have since suffered infertility, and are now hoping to grow our family through adoption.

We are excited to give you a little snapshot of our life and what we're all about.

## DAVID

Oregon grown and raised, I'm an equal amount outdoorsman and tech enthusiast, running deep on both accounts.

Some of my favorite things to do are: Fishing, exploring, having family visitors, the theatre, learning new things, being in the outdoors, tending to our vegetable garden & orchard, 'building' projects with Zane, cooking, reading, watching college football...

## LISA

I'm originally from Sweden, and having travelled all around the world for work and for play for a decade I met David and we settled in a coastal town in California close to where we both work.

Some of my favorites: Hiking, taking evening classes, my job (really :), nature, reading, having friends over, our pets, travel, making jams from the fruits in our orchard, new technology and art projects with Zane.

## ZANE & ASH

Zane goes to pre-school and enjoys learning new things, hanging out with his teachers and friends.

Favorite things: Ash, friends, cousins, exploring, ice cream, biking, scooting, snuggles, innovating & watching movies.

Ash is our 6 month old lab puppy.

Ash's favorite activities are: Chasing Zane, going for walks, treats, eating shoes, sleeping on our feet.

*We have a large number of relatives and enjoy hanging out together.*
