"I fell in love with Francisco when I watched him play basketball in High School. He encouraged all his team mates to play hard and do their best. I knew that I wanted a man like that to raise my children to always do their best! I loves the way he cares for us. He always looks out for us to be happy. I love the way that we can balance each other. Francisco is an amazing dad! The love and support he gives our children makes me fall in love with him each day. He helps coach our son's soccer team and takes the girls to track & field. Our kids are lucky to have him as a dad. Francisco has a fun and loving approach to life, and we cant stop smiling and laughing when we are with him. He is also a little boy at heart. He is a very personable and gets along with just about everybody!"

home

We live in a suburban town in New England. Being in New England we get to experience each of the four seasons every year. We are close to several major cities which means our community is home to people all over the world. It has been great to meet neighbors and friends who are from a variety of countries & backgrounds. Our town has events throughout the year including ice cream social, movies nights, and hot cocoa with Santa.

Our home is two stories and has plenty of space. It is a three bedroom home with a finished basement, that is close to schools, parks, church, and family. We have a large backyard that is full of kids toys thanks to Jennifer's home daycare. We love hosting holidays at our home, friends and family are always welcome.

We have two dogs. We welcomed Luly our Bull Terrier into our family in December 2016. She is a very lovable dog and she is always very happy. We added Mia our Havapoo to our family in April 2019. Mia is very lovable as well and she is the most energetic dog of the two.

our traditions

In this family, we love holidays! We host all holidays at our home. While we adore most holidays Three Kings Day and Christmas Day are our favorites. Every Christmas we decorate the house with lights and hang ornaments on the tree together. We love being with our extended families for the holidays, always staying up late on Christmas Eve with eating good food, and laughing together. Three Kings Eve night our children fill their shoe boxes with grass and placed them under their bed waking up in the morning with a little gift. On Easter all our nephews and nieces come to our home to decorate eggs and finally enjoy a Easter egg hunt in our backyard with eggs filled with surprises in them. On Thanksgiving our families joined for a family potluck dinner. We are excited to have our new baby join these holiday traditions with us!

We love being together & making special memories as a family. We enjoy traveling and camping, and can't wait to take trips with the baby. From a road trip to New York to a cross country flight to Punta Cana, DR. We visit Disney World almost every year it has become our family most vacationing spot.

"traditions are what makes memories"

about our extended family

Most of our family lives within short drive of our home and they play an important part in our lives. We are with them often and love celebrating birthdays and holidays together. We also have very close extended family in Puerto Rico. The distance gives us a excuse to travel and have new adventures. Everyone has been so supportive and excited about our plans to adopt. This baby will be loved deeply by all of our family and friends
