# To a Loving Mother...

We can't imagine the range of emotions and uncertainty you're feeling right now, each emotion and feeling is valid. While we can't take them away, we hope to offer some help. We are hopeful to build a relationship, be respectful of **your wishes and boundaries**, and be all around supportive.

We know this is one of the biggest decisions, if not the biggest decision you will ever make, what we can assure you about us is: Your child will always have a safe place to call home. Your child will be loved and nurtured. Your child's dreams and goals will be supported. Your child will be given every opportunity to be happy, successful, and have a good life.

It's our biggest dream to become parents and to be a safe place for your baby. We look forward to taking our first family trip to Disney and seeing them wear their first set of Mickey ears and sneak extra bites of a shared churro. We look forward to watching them grow and take their first steps and learning it's okay to fall, but to remember to always get up again. We can't wait to hear their silly laugh and watch a mischievous grin cross their face when they are up to no good.

If we end up looking different, it's a priority for us to immerse your child with the culture of their background and where they come from. We want to make sure they feel fully connected, and we will be mindful and intentional with treating your child as our own completely. We want to share with your child what a wonderful mother you are and the depth of love you have for him or her, and how grateful we are to you for this blessing. We appreciate your selflessness, courage, and taking the time to look at our profile. We look forward to talking with you, learning about you, and hearing your story, and if you choose open adoption, becoming your friend. We are praying for you wherever you are in your journey. But above all, we hope you find the RIGHT fit for you and your baby.

With love, Missy & Tony

# about us...

We are ready to open our doors and hearts to give a child unconditional love and a prospering life. Since getting married in 2015, we still keep each other laughing. Missy has worked as a remote medical coder for the past six years. Her role flexibility is a large perk with us trying to start a family through adoption. As for Tony, he is a passionate restaurant manager who always ensures he can be home by dinnertime. It is not uncommon to see him on the floor playing with our nieces and nephews, whether it be Legos or barbies (voices and all!) while Missy is in the kitchen whipping up surprise homemade cupcakes for someone's half birthday because she believes every life milestone should be celebrated. We have always had a strong desire to nurture, and to teach a child to be brave enough to chase their dreams while reassuring them their family is always there for them. We have a shared passion for cooking/baking, we even look forward to cleaning up a post-dinner high chair mess, as crazy as that sounds! We both love hockey and go to games frequently, even being partial season ticket holders. We want nothing more than to give a child a stable and loving home where they can feel comfortable to just be themselves.

# Our Family, Home, and Pets

**Looking for love, laughter, and dog snuggles? You've come to the right place.**

Our 3-bedroom home is located in Arizona. We are surrounded by a great community filled with walking paths, schools, and parks. We find ourselves walking to the park with our dogs when the weather allows. We have two dogs, our older sweet poodle mix, Jimbo. Then we have a young Golden Retriever named Penny. Both of our dogs are lovers of children...and all people really! We have a large grassy back yard, with room to run and play. Summers here can get a little hot, but lucky for us Tony's parents and Missy's dad live nearby and have pools for us to swim in! We share a close-knit relationship with both sides of our families, seeing them weekly, we are also spoiled by many close friends who we consider family!

# What led us to adoption?

Adoption is not a foreign concept and very welcomed within our family, Missy's dad and many family members are adopted. Within the last two years we connected with a biological aunt, it's been fun for us to welcome a new family unit into our lives; So we know what a blessing and how special adoption can be. Missy suffers from PCOS, with miscarriage and fertility challenges, having a baby naturally has not happened, so life has brought us to adoption and we could not be more excited and hopeful to grow our family by two little feet this way. We look forward to giving your baby unconditional love, a wonderful home and to uphold our promises to you.

## Extra things to know:

- Our home study is completed, we are ready to adopt at anytime!
- Missy is short for Melissa, and Tony is short for Anthony...so if you see our legal names, it's still us!
- We are located in Arizona!
- We are open to any gender, race, and even multiples!
- Adoption openness? We are happy with open, semi-open, or closed
- We want to reassure you that we will respect your boundaries and wishes.

Lastly, thank you again for your selflessness and bravery. We look forward to talking with you, learning about you, and hearing your story. We appreciate the time you took to read about us, we are prayerful you find the RIGHT fit for you and your baby and that you can feel peace.
