Alaska

Alicia

Job:

Part time Nurse Practitioner

Hobby:

Gardening, Baking Crafting

Spouse best trait:

His Patience

Family Activity:

Swimming & Camping

Type of Music:

Country

Dream Vacation:

Hawaii

Children

Our Sons by Adoption, Levi & Logan

Hi! Thank you for taking the time to learn about our family. We can't imagine how difficult this decision must be. We pray you find peace in the choice you make. If you decide to place your child with us, we promise to love them unconditionally.

See Note on Back page from Levi's Birth Mom!

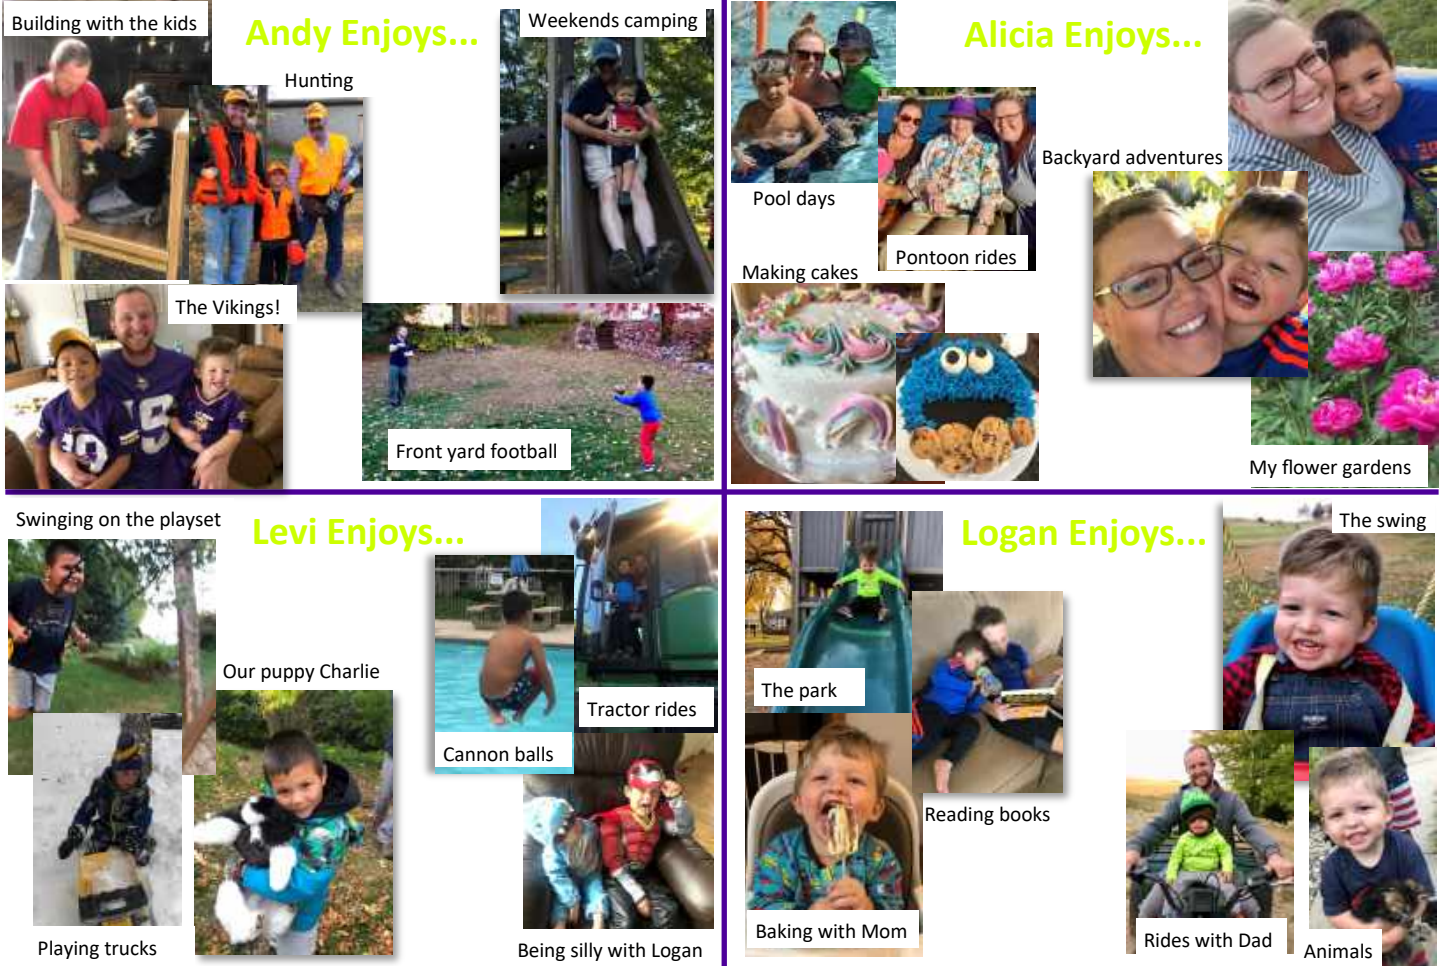

A Note From Levi's Birth Mom

"I was beyond scared and nervous to place my son for adoption just like anyone else would be in my situation. Then I found Andy and Alicia, and my entire point of view changed. When I got to meet Andy and Alicia, I knew I was doing it all for the right reasons. My heart felt secure and so did my decision on placing my son.

Everything they promised and said to me they have never failed to keep.

I love watching my little boy grow up and being a part of his life. He is so loving and full of smiles, and seeing him have the mom and dad I dreamed of him having is the best gift of all!"

THANK YOU

Our hopes for our children are that they are happy, healthy and have a zest for life to capture their dreams. We promise to always love and support our children and encourage them to be loving and strong individuals with a faith to guide them when things get difficult. We will always talk with our children about the amazing way they joined our family and your love for them. **We offer an open adoption,** but only if you wish.

From the bottom of our hearts,
Andy and Alicia
