Baby, Multiples/and or sibling groups

Dear potential birth mother, We pray for you each and every day. We know the decision you are having to make is one of the hardest in your life. We are so excited to meet you and to get to know you! Please let us know if you have any questions for us whatsoever!

😊 About us:

Hello! We are Becca and Rodney, and we also have an almost 5 year old adopted son (man how the time flies!) We live on 12 amazing acres in Texas, and love it! We adopted our first son when he was two days old and it was one of the most special moments in our entire lives! Becca is a wedding photographer which she loves because she is mostly a stay at home mom and can do most of the work at home! Rodney is a public affairs specialist and loves it!

We have always wanted a big family and we know our son wants to be a big brother as well! (he asks us almost every day lol) He will make the best big brother!

 Home:

We live in Texas on 12 beautiful acres of land. We are still super close to the city so we are still close to friends and family and our church. We have a lake on our land and also a tree house and big playground. (our son LOVES it) we also have a golf cart that he likes to ride with us on!pastedGraphic.png

   Pets:

We have two dogs, Bokeh (a huge golden doodle) and Kayah (a sweet golden retriever. They are both big sweethearts and love kids. We also have chickens, ducks and goats. Our son loves to help feed the animals and collect eggs. I honestly never thought I would be a “farm girl” but turns out we are loving it!

  Hobbies:

In our free time we love to get together with friends and family. We are always known as the house to host big get togethers. Rodney loves to BBQ and we love having people over. We both love to cook. We also love to travel. Disney world is usually one of our go-to destinations. We also love to go to the lake and pools to swim in the summer! Beccal also loves to paint, and sing. Rodney loves to work out.

 Baby:

We are open to all types of adoption and all different types of circumstances. We would love to adopt another baby but are open to all ages!

 We hope to talk with you soon! Please let us know if you have any questions about us! We are an open book
