

**ALEX
AND
MIRANDA**

HI!

We are Alex and Miranda!
We truly admire the love, strength, and courage you have shown by choosing adoption. We cannot begin to understand the feelings you are experiencing with this decision, but we hope that by learning about us, we will help make your decision a little easier. We are open to any level of communication you are comfortable with.

OUR STORY:

We met through mutual friends thirteen years ago. At the time, Alex was a singer/songwriter and Miranda was working on comedy and writing. We formed a deep bond, spent hours talking, and getting to know each other before we started dating. We knew we were meant to be.

We were married nine years later in Downtown Los Angeles surrounded by close friends and family on a beautiful summer night. Our commitment to one another is, by far, one of the best decisions we have ever made.

We truly feel like we're a team. Whether we are playing with the kids in our backyard, cooking, traveling, or just spending time talking, we are happy because we are together.

Our days are truly filled with love and laughter, and we are grateful for each moment. Only a couple of months after we got married we began fostering and eventually adopted our three daughters. Now we are waiting for one more special child to make our family complete.

HOME SWEET HOME:

We live in a wonderful neighborhood filled with all different kinds of families right up the street from the elementary school. We have a big yard that is perfect for BBQ's and birthday parties. Miranda has really enjoyed turning our house into a home, and we know that this is a wonderful place to raise a family.

On most Friday afternoons, you will find friends and family gathered around in our backyard, the kids playing and eating homemade meals. Just down the street from our house is a large playground with a splash pad and basketball courts. We spend a lot of time there with the girls.

ADOPTION IN OUR HEARTS:

Our decision to adopt is by far the best and most life-changing decision we have ever made. We have always felt adoption was a calling for our family. There truly are no words to adequately express our gratitude to the girls' birth moms and dads. We do not take one moment with the girls for granted.

THANK YOU!

We want to thank you for considering us to love, nurture, and raise your baby. Our commitment to you is that your child will live a safe, happy, and fulfilling life in a fun, loving family. We wish you the best whatever you ultimately decide, and no matter what happens, we are sending you all of our love.

With Love,

Miranda, Alex, Alice, Trinity, and Jasmine
