

## OUR *Family*

This is us. We love Disney & time together! I can't imagine life any differently, and love to watch my children thrive!

*Hi,*

Hello! Thank you for taking the time to open our profile. I can't tell you how blessed I am to be a mom through adoption already! I know all the happiness, and loss of the process. My wish is to adopt our final addition (s) and become a forever family. I prefer 0-3 age wise. I have been a parent to a few babies, but they all were able to return to their biological family except my oldest. My oldest is the only one I have raised from baby to adult, and would love to be apart of the process of seeing them grow from infant to adult once again. My other kiddos also would love to have another sibling, which will remain with us forever.

I chose adoption when I was 21 as the way I would grow my family. I have never looked back. I never tried to biologically have kids, because adoption has given so much light and love to my life, and I truly love being able to help the babies who need it the most. One of my favorite things is to watch kids grow and figure out who they want to be. I understand that each and every single child is different and I find that amazing! I would love to hear about you and your wants for your child. I know this is a hard decision so please let me know what I can do to help.

I am here to create a connection with you and open my heart, so please feel free to ask me any questions!

*Love,*

Ritee

# Ritee

I work as a software development manager at a financial firm. It allows me to make a good wage & am able to work remotely to meet my kids needs. My best friend Anita, (a stay at home mom of high schoolers) & oldest daughter Jasmine do daycare for the younger kids & we have an amazing pre-k program that starts at 3 and 4 at the school my younger kiddos go to in our neighborhood. 3 yr olds go for a half day, while 4 & up are full day programs 2 blocks from our house.

I am a single mom of 6 girls ages 22, 14, 13, 12, 12 and 7. I have been a foster mom for many years now. I would love to finalize my family. I have experience with many trauma backgrounds, special needs and developmental delays. We have both open and closed adoptions with different kids and family members. I look forward to meeting with you and adding the youngest child to our family! As you will be able to see I love Disney and my kids. It's our lifestyle!

*She did it, way to go Jasmine!*

## Jasmine

Jasmine is my oldest, she is 22 years old. She really is an amazing big sister! She loves the girls more than I can explain. Jasmine helps them with fashion, makeup, watches movie marathons and loves making "sister time" as she calls it. She is truly there for each and every one of them on a personal level. Jasmine's other favorite things to do are figure skating, dancing, hanging out with her friends and music. She is a beautiful singer!

## Heaven

Heaven is 14 years old. She is very interested in Girl Scouts, volleyball and archery. Heaven swims on our summer swim team and she loves to read. Heaven also plays the clarinet in the band and joined marching band as a Freshman this year.

## Soraya

Soraya is 13 years old and just got her braces on. She is an artistic person who loves to dance, sing and color. Soraya is also on the year round swim team and swims long distance. Soraya is a sweet, loving and soft spoken big sister.

## Isabella

Isabella is 12 years old and is a twin with Aleana. They are complete opposites. Isabella is a strong willed, caring, tomboy. She loves to swim and is super competitive. She is a sprinter and is fast! Isa loves animals and wants to be a vet at a zoo when she grows up.

## Aleana

This 12 year old twin is Aleana. She is our girly girl. She likes to dance, cheer, dress up and play dolls. Aleana is also an avid Harry Potter fan! You can ask her anything and she will know the answer!

## Emerson

As the current youngest, Emerson is eager to have the role of being a big sister. She desperately wants a little brother or sister to play with! Emerson is definitely a talker and a singer. All The Time. She is 7 years old and finishing first grade this year. Emerson loves to play little people and dolls. If you mention Frozen - her smile lights up the room! (to be honest, it does that either way)

## Bentley Paisley

We have 4 dogs and 2 cats! We love animals. Our house can include many small animals, birds, lizards or fish at any given time. Our pets are considered family and we could not be luckier! Bentley is a 5 year old black Newfoundland. He really loves the kids and watches them closely. He loves to snuggle and have belly rubs. Paisley is a Saint Bernard/ Great Pyrees mix. She is 3 years old and loves the kids to play with. She never tires of being petted.

We often call Paisley, block head because of her head size and stubborn personality.

## Kendall Winnie

Kenall is a 6 year old all white Great Pyrees. She is the house protector. When she see's those leaves blowing or hears the wind she must bark at it to warn it off! Now, if you turn the ceiling fan on, it's a different story, and she will hide! She is the brains of the pup team! Winnie is a 2 year old black and white Newfoundland who is still a puppy. She is super laid back and can normally be found with a toy in her mouth. She does not understand fetch but likes to carry them.

All of the our dogs have middle names. Bentley Reese, Paisley Rae, Kendall Marie, and Winifred Rose.

## Kitties

Luke is the lighter colored one with the purest blue eyes. He loves to find socks and clothes to bring you as a part of his "hunting" routine! He'll tell you all about his catch. Beckett is on the top and is normally found doing exactly what you see. He will sleep anywhere on anyone, if you let him. When he is not asleep, he will tell you about his day talking up a storm! Last are the kittens Hercules and Sebastian!

## Our Home

We live in Colorado just outside of the Denver metro, in a town that has been named one of the best places to live multiple times recently. We have many large families in our neighborhood and the kids all play often. We built our house 4 years ago and it has 5 bedrooms, 4 bathrooms and a great open family room. Our neighborhood also has 3 parks, 2 pools, and an activity center which are all walking distances and part of the HOA. We have a mall, lots of retail, great schools that are walking distance and much more. In addition the town has a recreation center for trampolines, indoor pool/playground, sports leagues and teams.

# Our Community & Friends

We live in one of the most beautiful states there is. It offers so much for our family to do. From the mountains, zoo, amusement park, downtown, red rocks, and just being in our neighborhood. While I have a big family and I am just one person, please know it is not as tough as it sounds. My kids are my passion and I am confident in saying I am good at this whole mom thing. I do not do this alone - it takes a Village for sure. I have an amazing family and friends network and it truly does take a village to raise kids. Friends include 3 sets that we have known for over 20 years so are as close as family.

My family has an active and working relationship with play, occupational, physical and speech therapists. We have had the same pediatrician for over 20 years! In addition we have many great Children's hospital locations and a pediatric trauma center within a short distance, which my sister works at.

## About Our Extended Family

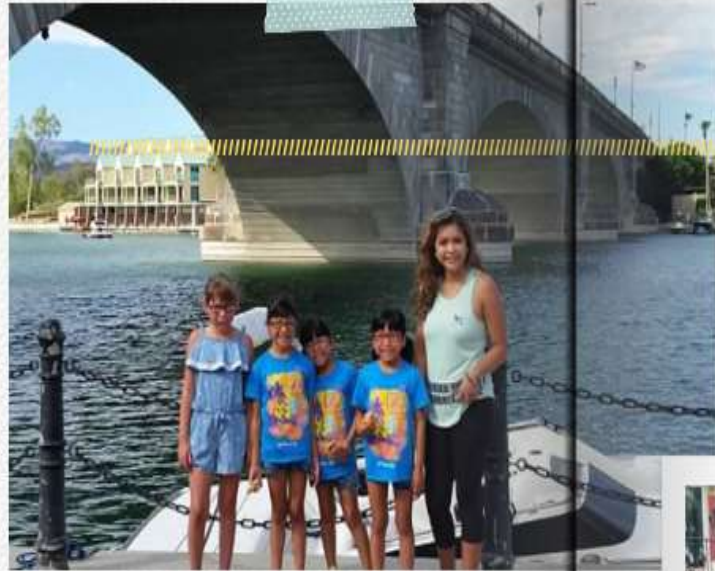

### Our Family

Family includes 3 sets of grand parents, 6 uncles, 4 aunts, and 10 cousins all within 30 minute radios. There are 4 sets of twins in our families so I am very well versed in kids close in age.

We have family spread across the world from US, Korea, Australia and Europe. In the US, we have family from coast to coast. We are lucky to be able to visit multiple places each year. We do value our local family as well. Life is amazing when we can do big dinners and family traditions.

## Our Adventures

Our family loves to do a variety of things and stay busy. My girls do extra curricular activities such as girls scouts, swim team/lessons, volleyball, figure skating, archery, diving, cookie, theater, band/choir, cheer and dance. We take annual trips (or more) to Disney as it is our happy place. It gives us time to just be kids together without the stress of the world. We also have family land and a cabin in a remote location of the mountains that allows us to get away from the city life and do zip lining, 4 wheeling and hiking!

If we could have a whole page of Disney pictures we would!  
Love Disney!

## Our Traditions

Our family has many traditions and we continue to set new ones each year as our family grows. Spring always brings the biggest Easter egg hunt you have ever seen. Summer brings swim teams, bike riding, outside play and water parks. Fall brings pumpkin patches, horse back riding, pumpkin carving and dress up with tons of candy. Winter would not be complete without Thanksgiving and our Christmas. Our annual trip to Disney, the hotel stays for the parade of lights and much more. We cant wait to share these experiences with another person!

Always a party when you put our family together!

# *Thank You*

All my girls have varied relationships with birth family from opened to very closed! Closed was based in their safety due to their bio families abuse, not by choice. I would prefer open relationships as knowing their biological roots is very important to all of us! I truly love my family more than I can ever explain, and would love to add the youngest to the tribe. Please tell me what level you want and I am here to support you. The kids needs are the focus!
