INTRODUCTION

What do you call a fake noodle? An Impasta! (Dad Joke) Hi we are Paul and Rachel, and we are excited for the opportunity to adopt and be first-time parents! We met at our local university 7 years ago and have been married for 6 years. We love to laugh, play board games, and hike. Our favorite thing about living in Utah is that our families are close. We have 8 amazing nieces and nephews whom we adore. We are excited to have a third member of our family to make memories and share our love with. Thank you for your time to look over our profile and consideration of placing your child with us.

RACHEL*

If I could describe Rachel in one word, I would choose spunky. Rachel is always looking for new things to try and loves sharing this enthusiasm and curiosity with her friends and family. I think that is why she is a naturally good teacher. She conquers her fears and encourages those around her to do the same. She loves spending time in the mountains, playing games and practical jokes among other things. She loves wholeheartedly; the children of her classroom, the teenage girls she mentors at church, and her family. I admire the importance she places on the *time* she spends with those whom she loves. She is smart, thoughtful, kind, and patient which will make an amazing mother and role model. I can't imagine anyone else with whom I would want to share the responsibility of parenthood.
