

Hi! WE ARE TRAVIS, CHRISTINA & ASCHER

Life is an adventure and blessing to us. One of the greatest joys that makes life complete is having children. We believe parenthood is a tremendous honor and wonderful blessing. We wish to continue to bless our family by adding another beautiful child. We appreciate and thank you for taking the time to view our profile and invite you to continue to read a little more about our dreams and goals in life.

Meet TRAVIS

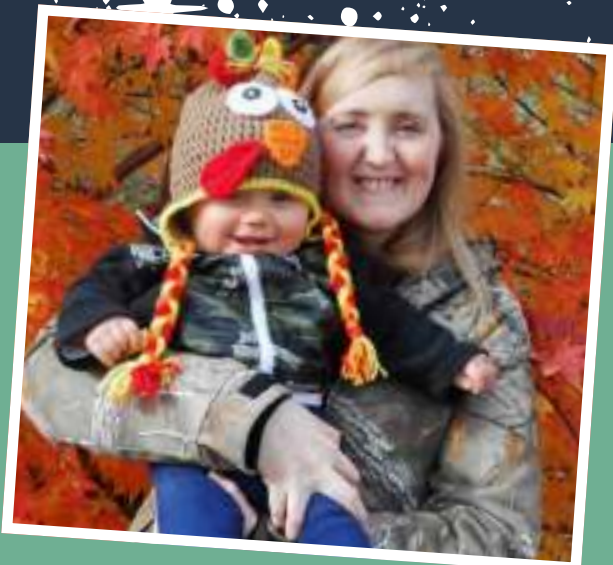

Since having Ascher I have seen a side to Travis that has amazed and inspired me. He is a wonderful father who loves to play trains and legos with Ascher. He is very patient and affectionate to him. When we adopted Ascher he was the most protective and loving father. His personality helps to balance out my outgoing spontaneous side. He has supported and held me up during every curve ball life threw. I have been so blessed to have his guidance. Travis is a loving and supportive husband and continues to humble and amaze me every day with his love towards our family.

Travis is the oldest child of a family of three siblings. He has a younger sister and baby brother. He is definitely the tallest in the family at 6'6". He grew up working on cars with father and reading comics with his best friend. He graduated college with his electrical engineering degree and continued on to get his doctorate. He loves corvettes and restoring classic cars. He loves teaching Ascher and is very patient with him. He loves sharing his love for comic books and science fiction with Ascher. He loves teaching him new things and is always extremely supportive. His personality is very laid back, relaxed, and quiet but when you get him to open up he is the funniest guy with a very witty sense of humor. His hobbies include fixing old radios, restoring cars, collecting comics and coins, traveling, and playing outside with Ascher and the dogs!

Christina is a loving mother and wife. She is a wonderful mother to our son Ascher. She is outgoing, smart, and keeps us all organized. During supper Ascher and she love to dance around to his favorite songs. She is excited to welcome a new addition to our family and will spend a majority of the time with our children during the day.

Meet CHRISTINA

Christina grew up out in the country with a younger brother. Her brother and her were best friends growing up. She had a large extended family. She was and is still close to her cousins who were adopted and consist of a very diverse group. Christina had medical issues that would make having children hard on both her and them so she always knew she was going to adopt. Especially with her cousins being adopted she knew from her aunt about the process and always wanted to pursue this. She went to school and became a pharmacist and works part time and watches our son Ascher who also was adopted at birth. When she has spare time she loves to craft, play legos with Ascher, or ball with the pups outside. She loves animals and music. Ascher and her are always dancing around the house singing and decorating for the seasons. She is definitely an outgoing, fun, positive person who loves to be outside. She has always envisioned a large family that is full of love and respect and is truly blessed.

LOVE AT FIRST SIGHT

We met online at Match.com. As Christina always says it was love at first sight. We were both finishing graduate school when we started dating. After 5 years of traveling together to various fun places such as Mexico and Vancouver Winter Olympics we decided to marry and start a family. We were blessed to celebrate our wedding in Germany in a castle with our friends and family.

ABOUT ASCHER

Our sweet little man is almost 5 years old. He is a very energetic boy who loves to play with cars, dinosaurs, and anything with Legos. He loves watching power rangers, transformers, and anything with animals. He is independent and loves to help out around the house. He was adopted from birth so we both know how amazing and difficult it can be for both sides. He has brought so much joy and happiness to us and we can't wait to add another wonderful special baby into our lives.

OUR HOME

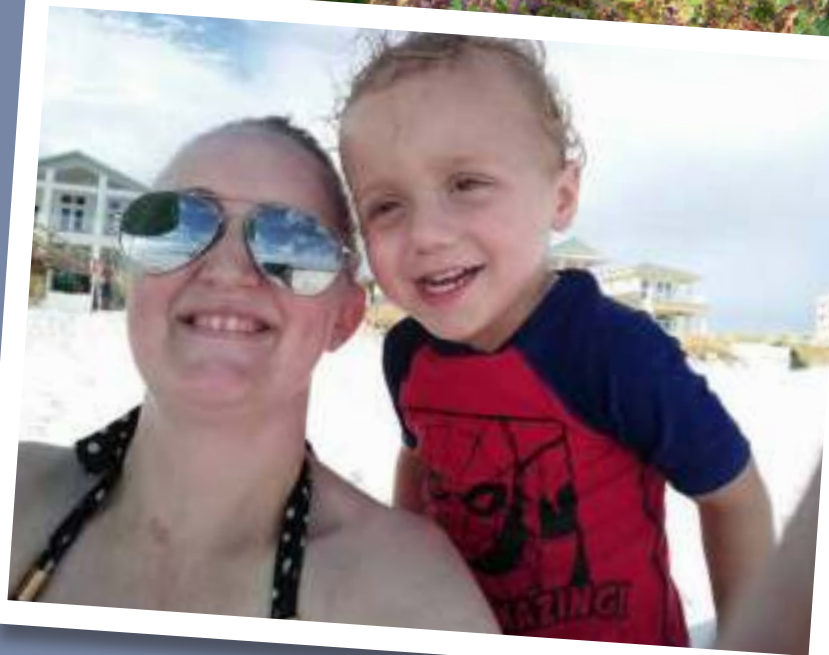

We have a beautiful 3 bedroom ranch style house with a partial finished basement that allows for a separate play area. We have a great fenced in backyard that is "weiner dog" proof for kids and dogs! You will always find us hanging outside doing landscaping in the garden or around the house, swimming in the pool, or playing all sorts of sports with the dogs. We are close to many local parks and our family farm!

We love our neighborhood and everything about it. Our street is on a dead end road which makes a fun close knit community. Children of varying ages live in our neighborhood from newborns on up to seniors in high school. Our neighborhood is close and promotes a wonderful safe environment for children to grow up together and become great friends.

We love the outdoors and traveling. Whether we are hanging around Missouri visiting interesting places or traveling across the country we enjoy just being together and exploring.

Our family loves to walk around the neighborhood with our lab/boxer dog, Brownie, and our weiner dog, Pepper. During the summer months you can find us playing in our pool and lounging around. During winter Ascher loves to sled and have snowmen! We love our backyard and love to cook hot dogs and s'mores during the fall months in our fire pit.

DEAR BIRTHPARENT(S),

Life is fraught with many wonderful and downhearted events that together help create a magnificent, meaningful life. People all over the world are on their own adventures at many stages of their lives. Some are just beginning to write their amazing journey while others are closing the last chapter. To us one of the most significant achievements in life is raising a family. We want to help your child start his or her own chapter in our family.

Our life will be full with love and respect for your child and the paths they choose. We believe what creates great parents is by supporting and encouraging children to achieve their dreams and ambitions in life. We will provide this support in everything they do whether their goals become sports dreams to academic dreams and beyond. Most of all we will provide love which is the glue that holds families together.

We imagine many nights of bedtime stories and star gazing adventures to Saturday walks in the park playing with the dogs. Your child will have many memories of travels and family voyages around the world. Your child will learn about many other cultures and religions. We are very strong in our Christian faith however we believe that every child should have the opportunity to discover what they believe and grow in that. Sundays will be spent growing up in our church community and also spending afternoons and evenings with family building those bonds.

Your child will be showered with so much love and encouragement from such wonderful people in our lives. Your child will want for nothing and continue to grow surrounded by warmth and love. Holidays will be spent enjoying our many family traditions from decorating our Christmas tree to fireworks and barbecues on the fourth of July. Life will definitely be an exciting adventure for your child and at the end of the day there will be plenty of snuggle time with all of us.

We want to express to you that your decision in considering adoption is one that deserves great honor and respect. We admire this. We wish to respect your wishes regarding your openness through the adoption and we want you to be a part of this journey also. We would love to share stories and pictures of our family growing and if you are open we would love to provide the same to your child about you. We love and respect your decision and will convey to your child every day that decision if you wish. Your presence will be with your child throughout their life. Our ancestry is just one chapter that helps to build our life and we will openly share your ancestry with your child.

Thank you in taking the time to learn about our life and dreams. We wish you all the love and blessings in everything you do and whatever path you journey. May you take comfort in the thought that no matter what decision you choose your child will truly be loved and blessed.

Many blessings and prayers:

TRAVIS, CHRISTINA & ASCHER
