hello!

SO NICE TO MEET YOU!

THANK YOU FOR TAKING THE TIME TO GET TO KNOW US!

We want to thank you so much for looking at our profile. We realize this may have not been planned and is an extremely difficult decision. We admire your strength in finding the plan that is best for your baby. We are praying for you and your decision.

We respect that this is a hard moment and is your decision. It is honestly a honor and privilege for you to even take the time to look through our pictures and hear more about our family.

Thank you for taking the time to get to know us and our family through this book. Please know that we are a devoted couple to each other, our children and ultimately to the Lord.

our STORY

We met in 2005 through mutual friends on a group date. We both had a sense from the first time that we met that we had each met the one that God had planned for us. We got married in 2006 and had our first child, a son two years later. We love being parents. It truly is our greatest passion and purpose in life. Three years after our son was born we had our first daughter. After our first two children, we knew that we wanted a large family and decided to pursue adoption. When our first daughter was about a year old we began the process to adopt. We adopted our second daughter from China about a year later adopted our second son. Our adoptions have blessed our lives immensely. All of our children bring such joy to our lives and we are so very blessed that God called our family to adopt. We have the same bond with our adopted children as we do with our biological children and love all of our children unconditionally. We live a very blessed life with so much love to give, we would feel so fortunate to share it with another child or children. We have a special heart for children and we both are very active in our children's ministry at our church. We love to have lots of kids running through our house and we love to host family and friends in our home.. We both have stable careers, live in a beautiful safe home, in a diverse community, and have amazing family and friends.

We will emphasize the importance of a relationship with Christ to our children. We will teach them the importance of an education and help them find and follow their passions in whatever avenue that is.

We love to travel and take our children to different places. Both sets of grandparents are very active in our children's life as well as cousins. Our kids love to visit grandparents and make cookies and do crafts.

When we look at the future of our family we envision a full table with all of our children sitting around and eating a meal together discussing our day. We look forward to nurturing and loving another child. We look forward to teaching them how to ride a bike, baking with them, and watching them at whatever avenue brings them joy. We look forward to teaching them about the Bible. We will be their biggest advocate and cheer them on in all aspects of life.

meet Kyle

Hello, I am Kyle. I am an avid outdoorsman who loves to garden and hunt. I love to spend time with my family and travel. I am very blessed with a great career as a surgeon. My job is flexible as I own my own practice so I am still able to help people as a physician but also have lots of quality time to spend with my family.

I come from a family of loving parents with a sister that I have a great relationship with. We see each other several times a year and our children enjoy playing with each other. I have a loving intentional mother and a father who is my best friend. I go to him for advice and look up to him as a role model. Both of my parents are very active in our children's life.

I live an active lifestyle and try to instill that in my children. We love to play basketball in our driveway and hit baseballs and play flag football. I enjoy exercising and my children love joining in on the fun.

One of my favorite things to do is watch little house on the prairie episodes with my children. We all sit in our living room on Saturday nights with popcorn and watch a few episodes together.

My family and my children are a huge priority in my life but first and foremost is my relationship with Christ. I want to instill in them the importance of making Christ your personal Lord and Savior and try my very best to lead by example.

meet Amber

Hi! I am a creative person who loves to work with her hands. I love just about any thing when it comes to crafting and we all love to craft here at our home.

I am primarily a stay at home mom but I also have an art business where I make and sell my artwork. I love doing this because it helps provide for my family but also allows me the flexibility to be present for my children when they need me. I love to travel with my family, cook family meals and be involved in my children's school and all their activities. I love to entertain and have family and friends over. I also love to decorate my home and make it a special calming environment for my family to relax in. I have amazing parents who live about 10 miles away. I also have an amazing group of friends and a very supportive church family as well.

our Home

We live in large brick home that we built in 2018. We live on twenty acres of land, which gives our children lots of playing space to explore. We also have a pond on our property where we love to fish and boat as a family. We have 5 bedrooms and two large play areas in our home. We also have a special room dedicated to all of our crafting. We have a workout room as well where we like to exercise as a family.

We love to be outdoors, so we have a great outdoor area where the kids have a swing set, playhouse, a trampoline and sandbox. We have a long driveway where our kids love to ride their bikes.

We have lots of room for another child or children. We are anxiously awaiting to share it.

our Community

We are blessed with a diverse southern community. We live in a low crime area with lots of parks and recreational centers. We have several award winning school systems in our area as well.

Our children attend a private paid Christian school that is just a few minutes from our home. We have a great community of friends and a large church family. we love to attend church events and we love the outdoors and to spend time with family and friends hunting and fishing.

We are also very active in service serving our community by hosting events in our home and discipling young people in our area.

our Family

We have a family a 6 or should be say 9 since we count our pets as part of our family. We have two cats and a dog. Our cats are named Princess and Johnny and our dog is named Lilly. We love animals! We hope to get some chickens soon! Our oldest son is an amazing big brother and keeps everyone in line! he is a great help around the house and works very hard in school. He loves people and is a kind and compassionate young man. Our oldest daughter is quite the inspiring teacher she loves to help her younger brother with his homework and loves to teach and play with children.

Our second daughter loves babies. She plays with her baby dolls every chance she gets! Our youngest son is such a sensitive compassionate boy and is looking forward to having to younger brother or sister. The girls love to craft and paint with Amber. Kyle loves to take the boys hunting and fishing but the girls love doing this as well!. All of our children have a sport or activity that they are involved in. Both of our girls take Dance and tumbling and one loves basketball. Our oldest son plays football and soccer and our youngest son enjoys participating in Karate but his favorite thing to do is make music.

We are a multi racial family, as two of our children were born in China. We like to celebrate their culture and love to celebrate the Lunar New year every year with special food from Chinese cuisine. We think it is important for our children to have a love for their culture. We also have lots of family friends who are different races and friends who have adopted as well. We think that is so important so our children can see other children who look like them and can relate to their background and heritage.

our family

The kids getting ready for karate

Having fun outside with Lilly our dog

Some vacation fun

A little birthday celebration at home

In our family we love to have fun. It is our intentions as parents to give our kids the stability that they need to grow into who God wants them to be and part of that is making life fun. We love to spend time together as a family. We enjoy traveling and have been all over the United states on vacations and travels. We love to stay active and enjoy the outdoors. We love to do things together and are always trying to think of new things that we can all enjoy together as a family! All of our children are involved in activities at our church. Our oldest son who is 13 is active in our youth group and volunteers his time to help in the children's ministry department. Our daughters who are both 10 are both in the children's choir and one of our daughters enjoys being involved in bible drill. Our youngest son who is 8 loves to sing with the children's choir as well and is active in his Sunday school class.

Hobbies *and* Interests

We love to spend time as a family. Some of the hobbies we enjoy are: watching movies on family movie night, vacationing to the beach every year, hunting, fishing, baking and crafting. We enjoy spending time with our friends and family. We love to decorate for the holidays especially for Christmas. We enjoy hosting family and friends in our home. We also enjoy taking pride in our home. Kyle enjoys working in the yard and riding his tractor. Amber enjoys decorating the inside of the home and painting furniture. We enjoy taking day trips to explore new areas. We are all passionate about physical fitness and living an active lifestyle but we also like to lounge around outside on our back patio or snuggle up together to watch movies.

All of our children have their own interests and dreams. We try to cultivate that and encourage them in whatever hobby and interest they have, even if it is something that we do not have experience with. We love to spend one on one time with each child and have day dates where it will just be one parent and one child doing something together. Our house is never boring and there is always something going on and we love it that way. We love to see the bond our children have with each other that they will have for a lifetime. Our daughters are best friends and our sons have a very special Big brother little brother relationship. Our oldest son loves to teach his younger brother things and they love to fly drones together.

our PROMISE

We promise to love your child unconditionally. We promise to nurture and meet the needs of this baby. We promise to spend time learning about their likes and dislikes and help them invest into whatever their interests are. We promise to take an interest in their desires and dreams and to be there for them whenever they need us. We promise to teach them about Christ and his love for him and to raise them in church. We will give them an education and send them to college if that is their desire. We will give them every opportunity that we can. Thank you for taking the time to read through our profile book. Please know that we are praying fervently for you and your decision.

THANK YOU

Thank you for your time and getting to know us. We know this is a hard decision. We pray that you will find peace when making your decision and appreciate that you have chosen adoption. We want you to know that we will provide a loving stable family for your child. We have a wonderful support system of friends and family that will be there to love your child as well. We cant wait to hear about your final decision. We are and always will be praying for you.

Thank you for taking the time to learn more about us. We welcome you to contact us if you are interested in us parenting your child.

Kyle and Amber
