

CHASE AND TAYLOR

HELLO!

First, we want to thank you for taking the time to learn about our family. We hope that you feel that you are able to get to know us, our families, and our interests as you look through our photos and read our story. We want you to know that we understand that this is not an easy decision and that we are praying for you and your child no matter what your decision may be. We are thankful for the opportunity to be part of your journey as you choose the family that is the right fit for your child.

As you looked through our booklet we hope that you saw our love for each other, our family, and our community. As a family, we always aim to love endlessly, serve daily, and laugh constantly. We strive to surround ourselves with people that bring us joy and challenge us to grow. As a couple, we prioritize having shared and individual interests to ensure that we have healthy boundaries and personal time. Over the past four years of marriage, these have been aspects that we have strived to improve on. We have worked to develop skills that allow us to deal with our differences and issues in a healthy way to bring a child into a home where mutual love and respect are not only taught but practiced.

We are thankful for your consideration during this time and pray that you find a feeling of peace and comfort with whatever decision you make during this process.

With love,
Chase and Taylor

OUR JOURNEY

We met in 2015 while working at UPS for the UofL Metro College Program. This program allowed students at the University of Louisville to receive free college tuition if they worked 3rd shift as a package handler. After working in the same area of UPS over the summer of 2015, we ended up in a class together and became close friends.

We started dating in April of 2016 and got engaged in November of 2017. While finishing off our degrees at UofL, we spent time taking care of our cat, Daphne, and planning our wedding that took place on December 29, 2018 .

Since 2017, we have attended and served at church. We love attending community service events such as food and school supply drives that give back to those in our community.

In our free time, you can find us cheering on our local semi pro soccer team and spending as much time at Disney World as we possibly can!

OUR WHY

Chase and Taylor have always held the quote, "Love makes a family" close to their hearts. Their friends are not just people who they are close to, but they truly are loved as if they are blood relatives.

When Taylor was 17 she was diagnosed with Endometriosis. At the age of 19, Taylor was informed that her Endometriosis and PCOS would prevent Taylor from getting pregnant.

After receiving this news Taylor found herself, through God's plan, surrounded by adoption.

Many of her friends had been adopted and many of her close mentors were in the process of expanding their families through the process of adoption. This was when Taylor first fell in love with adoption and felt that God would use her gifts to one day adopt.

In January of 2022, Chase and Taylor felt that God was calling them toward adoption and they are now walking through the adoption journey.

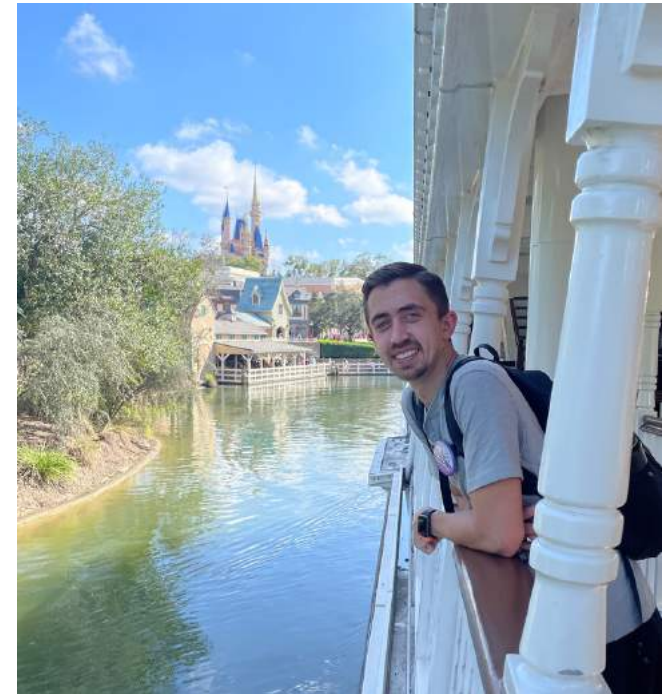

ABOUT CHASE

Hi, I'm Chase!

I'm 26 years old and I'm currently taking over my family's landscaping business.

I enjoy playing disc golf and listening to podcasts in my spare time! My wife has shared her love of Disney with me, and I love adventuring through the countries at Epcot with my wife as much as possible!

I am starting to compete in disc golf tournaments close to home in order to help me to improve my game. My goal is to win my first tournament in the next year or two!

ABOUT TAYLOR

Hi, I'm Taylor!

I'm 25 years old and I teach high school English! I love reading, running, and spending time with my close friends and family.

You can find me after school lesson planning or grading papers with an episode of Gilmore Girls in the background! When I get the chance I love to visit Disney World and U.S. National Parks!

I graduated from college with my bachelors degree at 21 and again with my masters degree at 24! I plan to go back to get my Ed.D in Education Cognitive Neuroscience in order to better support my students learning.

An upcoming goal of mine is to qualify for the Boston Marathon in the next 2 years!

OUR FAMILY

Taylor's family is from Tennessee and all of her aunts and uncles are retired teachers from the Nashville area! They are always ready to get together for a family event to celebration that is guaranteed to give them an excuse to **break out their classic country cooking!**

Chase's family take every opportunity to get together. Whether it's dinner and a movie with a few people or a friends and family get-together with food and games by the pool. **The more the merrier is usually the motto** when Chases' family puts on an event!

THOSE THAT BRING US JOY!

We love being around people that bring us joy! Our family goes far beyond the families that we were born in to. The people in these photos are the people that we have chosen to love and do life with, and that's what makes them family.

"Some of the best families are the ones you choose to belong to."

OUR PASSIONS

Taylor is passionate about providing high school students with a safe place where they can be themselves and feel supported! Here are a few students from the past that that are still part of our lives after they have graduated!

They have deemed themselves future "aunt's and uncles" as our family grows!

Chase is passionate about serving others in our community through outreach programs like Bless back and Habitat for Humanity.

Chase is always ready to volunteer to lend a helping hand to those in need!

DAPHNE

Daphne is excited to have a new friend to snuggle!
We adopted Daphne in 2017 from the Kentucky Humane Society and immediately fell in love with her sweet cuddly self! She loves to "help" Taylor grade papers by sleeping on top of them any chance that she gets!

PEOPLE CHEERING US ON!

Chase and Taylor show up for their people in the sense that you can rest assured they will be ready to jump in to assist with situations however is in their capacity. They are the only people we trust with our beloved Stevie (corgi puppy) and that is really a testament to who they are as individuals and a couple.

Caitlin

Chase and Taylor both love kids and you can see it in their eyes and actions that they will love one of their own kid(s) in every way! They show love in everything they do and I think they will make excellent parents! Literally couldn't ask for a better couple to have this opportunity.

Jt

Chase and Taylor are both gentle souls who love deeply. They desire to stay connected to a childlike experience of awe, wonder, innocence and joy through their interests in travel, hobbies and service to their community!

Joe

Before you go...

We want you to know...

that we are thankful for your consideration during this time. We are praying for you to have peace and comfort as you make this decision and that you will feel a sense of peace when you find the right couple!

We commit to ...

- loving without hesitation or reservations
- Listening before reacting or responding
- Encourage independent thinking
- Support each and every day
