

LINDSEY & JASON

WHY ADOPTION...

Adoption is something that has always been very special to us. It was something we bonded over when we were first dating, and we have been preparing for it ever since. We plan to have a large family. All of us have been waiting for a third baby to join our family. We have a room ready and the kids can't wait to have another sibling to see our life-long dream fulfilled! Everyone in our lives knows of our plan to adopt and they are all so excited for us to bring a new baby into our fun and loving home!

ABOUT US

We are two peas in a pod! We met on the set of a short film and immediately became inseparable. We love the same things... movies, comedy, filmmaking, friends, sci-fi, and travel. No one can make Jason laugh like Lindsey. And Jason constantly surprises Lindsey with his genius. We have worked together for our entire relationship and everything we do together turns out spectacular. No matter how busy we get, we still make sure to see movies on opening weekend and try new coffee shops to order their overpriced lattes.

LINDSEY

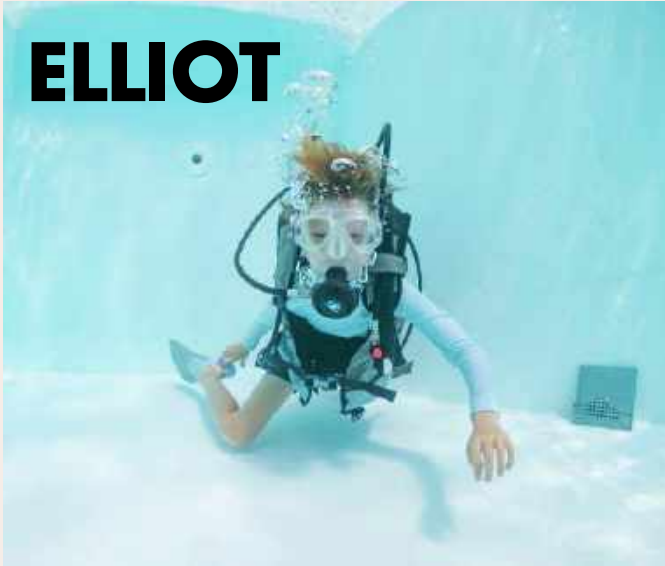

I am a TV writer, right now I'm writing on an animated Disney TV show called "Hailey's On It". My 4th Disney show! I play a lot of video games, which inspired me to write sketch comedy for gamers and that's what took off on our YouTube channel. When I'm not at work (if you can call something that fun "work") I like to hike the local trails with the kids, I love being a sports mom on the weekends, I go to lots of shows and concerts, volunteer at the kid's school, I work with the CLC that helps Foster Kids and plan fun vacations for my family and friends.

JASON

Everyone I know calls me to help them with their technology questions. I love technology and having the latest tech invention. I can build things as complicated as all the camera tech for a movie set, and things as simple as a great surround sound system for our home entertainment. I love movies and documentaries and stand-up comedy. I am teaching the kids how to build a computer from scratch. When I'm not at Best Buy or working at our production company, I am fixing up my '67 Mustang or modifying my Tesla.

ELLIOT

Elliot just finished the 4th Grade and his favorite thing about school is probably recess. He decided this year that he wants to be a YouTuber when he grows up – either playing video games or making funny prank videos. He’s really into anime like Naruto. He plays on the local basketball and soccer teams and plans to join the swim team once he gets to Middle School.

Violet is the entertainer of our family! She loves to dance, sing, play piano, play games, dress up, and read joke books. She loves school—if they don't give her enough homework then she makes some up herself. She plays softball and tennis. And can't stop talking about seeing her favorite pop star Katy Perry in concert!

HOME

COMMUNITY

We live in La Canada which is just 15 minutes from downtown Los Angeles—but has a small-town feel. Every street is picturesque and walkable. The public schools are some of the best in California. We just moved into a house with a pool!

Our dog Ripley is 13 years old but everyone thinks she's a puppy. We live 40 minutes from Disneyland (which we visit several times a year) and 15 mins from Universal Studios which we have season passes to.

FAMILY

Our family is very close, even if we don't all live in the same city. Lindsey's mom lives in Los Angeles and comes to all the sports games and recitals. Lindsey's sister and brother-in-law are getting ready to welcome their first baby. Jason's parents live in Las Vegas which gives us a good excuse to have weekend getaways to Vegas. Every holiday is filled with big get-togethers, and every few years we all go on a vacation together. We have extended family in Chicago so every few years we go out to visit them in the mid-west.

GAMING

We both love video games. Our first few dates were playing Halo in Lindsey's apartment and now gaming has become our lifestyle and helped launch our careers. For a few years we were even professional streamers on Twitch. Now we play for fun but Elliot is starting to get really good... maybe he will be able to be a Gamer on YouTube!

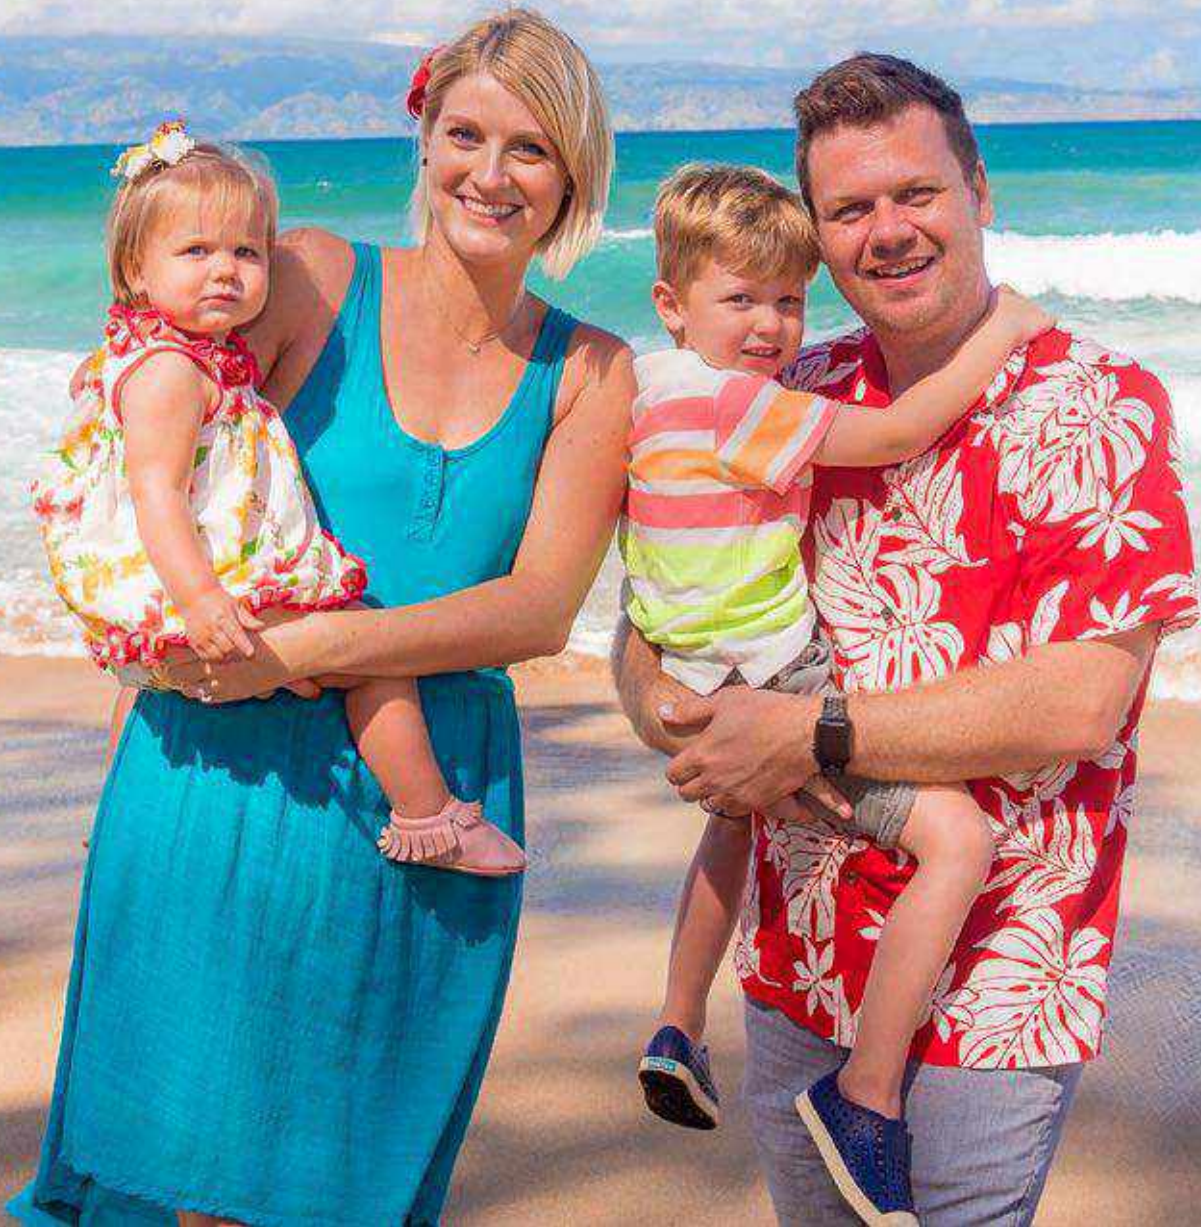

YOUTUBE

Our YouTube channel, Reckless Comedy, makes sketch comedy and video game content! We were one of the first channels back in the day to make money so we were able to quit our day-jobs to become full-time YouTubers! After a few years of full-time YouTube we earned our Golden Button when we hit one-million subscribers. Our success on YouTube led to Lindsey being hired to write for Disney and Jason teaming up with filmmakers to make a feature film that streams on Netflix.

ADVENTURE

We go on several vacations a year. Some are just the two of us and some are with the whole family. We also like to do special trips with friends or extended family. We have been to Thailand, Italy, Paris, London, Aruba, Cabo, Tulum, Vancouver and Hawaii, and tons of other cities in the U.S. We have plans to take the kids and visit Japan, New Zealand and New York.

WE PROMISE...

to take you to Disneyland at Christmastime to see the snowfall

to love you even if you like Nickelodeon more than Disney

to always have the newest video game technology

to show you all the Star Wars movies

to surprise you in school with McDonald's for lunch

to let you lick the spoon after baking cookies

to visit the snow every winter and make a snowman

to take you out for ice cream on Friday nights

to have lots of bubbles in your bath

to buy you the coolest toothbrushes

to make s'mores when friends come over

to take you to the theater to see Marvel movies

to get you Fortnite vBucks when you have good grades

to play lots of Uno games
