our story

Kyle and I met through mutual friends and first hung out on campus while Kyle was attending college. We started dating soon after! While we were dating, we loved to see movies, hang out with friends and eat dinner at our favorite restaurants.

About four years later while hiking at a nature park, Kyle proposed to me. He had the most beautiful ring and of course I said yes!

We had a big wedding with lots of family and friends at a local wedding chapel. The minister was a pastor who Kyle has a very close relationship with. We had lots of food, a photo booth and dancing. It was fun and energetic and will always be a

wonderful memory!

Since getting married, our relationship has just gotten better and better. We are truly the best of friends who enjoy experiencing life together.

Kyle and I initially decided to grow our family through adoption because I had a procedure to fix a brain aneurysm when I was 18. Although I am healthy now, my doctor said that giving birth to a baby could be risky. We have already experienced the joy and beauty of adoption with our daughter Sage, and we couldn't be more excited to be on this journey again.

TRUE
LOVE

HI! I'M
Haley

"Being a mom has brought me so much joy. I am so excited to grow our family again!"

Becoming a mom has been the most special experience of my life. I love getting to watch Sage experience things for the first time and I can't wait to share that with another child. I love how happy and excited kids are about mundane everyday things.

Some things I enjoy doing are reading, going to the gym or for a walk, seeing musicals, and playing games with friends or family! I also love traveling and hope to go on lots of fun trips with our family.

Right now I stay at home as a mom fulltime. Before staying home I taught kindergarten for 5 years. I enjoyed teaching, but I am so thankful to get to stay home with Sage and our next child. I'm also pursuing a Masters degree in speech therapy. I go part time and should graduate in less than a year!

WHAT KYLE LOVES MOST

Haley is so fun to be around. She's smart, funny and has a great laugh. She loves to give thoughtful gifts, throw fun parties, and plan fun activities for our family!

One thing I really admire about Haley is she does everything 100% - never half-way. She's always planning something fun and it's so exciting to be married to her!

Haley is an amazing mom to Sage. From speech therapy, to dance classes, to lots of toys, Haley makes sure Sage has everything she needs to be happy and healthy. When Sage is sad or scared, Haley is always the first person she runs to because Sage knows she can count on her.

Haley is also great at balancing fun and play with structure. As a former teacher, she makes sure Sage gets sleep, food, and everything else she needs to thrive. That commitment to detail is really helpful because it's something I'm not as good at. I'm so thankful Sage and I have Haley to help take care of us!

HEY! I'M *Kyle*

"I'm the oldest of six children, and I love spending time with kids."

Being a dad has been such a fun adventure. At first, I was nervous to have kids because I knew it was a big commitment, but I have absolutely loved the journey of getting to know Sage and watching her grow up. The times I spend with her are usually the happiest moments of my day, and I can't wait to experience that with a second child.

Some things I enjoy doing are going for walks, listening to audiobooks, fishing, going to the gym, and watching football on TV.

I own a boutique digital marketing agency that helps bloggers and authors get more exposure online. This business has made it possible for me to work from home and spend more time with family. I'm also very thankful for the income it provides because that has allowed us to do fun things like go on trips!

WHAT HALEY LOVES MOST

Kyle is so much fun to be around. He's great at taking care of me and Sage. He makes us laugh and does everything he can to make sure we are happy!

Kyle is super smart, kind and compassionate. He is such a family guy and his desire to take care of me and Sage is so evident. I admire his ambition and the way he keeps his commitments. He graciously accepts people with different views, which makes him very approachable and relatable. I also love Kyle's goofy sense of humor!

Kyle is the best Dad! He and Sage have the cutest relationship. Sage LOVES to play with him, and he is great at getting down on her level and making up silly games for them to play together. Sage and our future kids will be so lucky to have Kyle as a dad because he'll spoil them rotten and try to put their needs above his own.

HI! I'M *Sage*

Sage is such a happy little girl. She lights up any room she is in! Her smile and personality are truly the best.

Sage is the most precious little four year old. She's a very happy kid. She loves to read books, swing in the backyard, swim in the neighborhood pool, and go to the nearby zoo. Sage loves to spend time with her grandparents, aunts, and uncles.

Sage was born with hearing loss, but after getting cochlear implants and speech therapy, she can hear clearly!

She loves to listen to music and currently loves to listen to the Trolls movie soundtrack on repeat! She also loves to dance and actually goes to a dance class every week.

She has us wrapped around her finger, and she totally knows it. She's hard to say no to!

Alyssa is very relaxed and fun to be around. She and her husband, Austin, and their kids are currently living in China for two years. We miss them so much! Austin is employed with the Foreign Service as a diplomat and works at the consulate.

Alyssa and Austin's daughter, Charly, is six years old. Their son, Lincoln, is five years old. Both kids are crazy cute and have tons of energy. Charly started Kindergarten this year and loves going to school. Lincoln started playing soccer and loves to tell us all about it!

our dogs

NORA & RALPH

We have two dogs who are both maltipoos. They are small dogs, both weighing about ten pounds. Their names are Nora and Ralph. They are extremely gentle with kids and Sage adores them. Ralph loves to play fetch and Nora loves to get belly rubs.

our home + neighborhood

We live in a house that Haley has decorated beautifully. It has 5 bedrooms, 3 bathrooms, and a nice backyard. We have a playroom filled with all of Sage's toys, and Haley's dad recently built Sage a swingset for our backyard!

Our house is about seven years old and is situated in a nice neighborhood with green trees, rolling hills, a neighborhood pool, a nice

playground, and lots of young families.

Our community is fairly diverse and very family friendly. The neighborhood pool and playground is just a 5 minute walk from our house. There are lots of family events throughout the year in our neighborhood. We are zoned for a nice elementary school that is very diverse.

MORE ABOUT US...

EDUCATION

We plan to send our children to public school. Haley was a teacher in the public school system for 5 years and we believe, in the right district, public school is the best option for grounded, quality education in a diverse setting.

We are both college graduates and we would gladly send our kids to college if it is the best fit for their career choice. Our priority is to raise competent adults who excel at what they do. We believe it's important for children to experience a variety of career opportunities, and then ultimately, it will be up to our kids to decide the field in which they want to study or work.

OUR FAITH

We will raise our children to know the love of God. We want to teach our children to be generous, to respect other, to make wise choices, and to be loving and kind. Our family will help us by encouraging us as parents and giving our kids a safe place to learn about God.

OUR FUTURE

We plan to have two or three children, travel more, and experience life together as a family. Kyle is growing his consulting business and hopes to write a book. Haley plans to continue to stay home with the kids and finish her masters degree in Speech Therapy part time. We hope to have a really tightly knit family, and we want our kids to have the opportunity to experience a variety of places and activities.

thank you!

Thank you again for taking the time to get to know us! We hope you were able to catch a glimpse of the love we have for each other and the love we have for our future child!

We believe adoption is a brave and selfless choice, and we have tremendous respect for you and all expectant families who choose to find homes for their children through adoption. We believe family is more than DNA. It's a group of people who commit to love and look out for each other no matter what the circumstances. We have seen this play out with our daughter Sage, who we love more than anything. For these reasons, we see adoption as a wonderful process that should be discussed openly when our children have questions. We will always speak of you with the love and respect you deserve and your child will always know how much you love them.

We promise that if you place your child with our family, they will be raised in a home full of love and laughter, given the freedom to become the person they choose to be, and surrounded with support from family and friends.

*Love and prayers.
Kyle and Haley*
