

KERIM & MINE

# Hi There!

From the bottom of our hearts, we appreciate you taking the time to consider us as potential adoptive parents. We have always wanted to be parents, but we have struggled with infertility. We have tried IVF twice. Unfortunately, we couldn't succeed and then we started thinking that God wanted to create our family through adoption. There will never be enough words to describe how we feel about you. We want you to know we think you are so brave in choosing life for your baby and that we admire your strengths and respect your decision to do what you feel is in the best interest of your child. We believe it is a huge honor and privilege to become adoptive parents and we accept our responsibilities to you and your child with respect and love.

We have known each other for a long time. We have been married for 13 years. We enjoy going for walks outside and biking, going fishing on the creek, and getting together with friends at home or outside. We like being active and spending time hanging out shopping and going to the movies. We love to experience new foods, visit different places, and countries and learn about different cultures. We love reading books. We also love spending time in the garden watching things grow and picking veggies for breakfast or dinner.

We especially love being an aunt and uncle to our nieces and nephews. We love spending time not just with our nieces and nephews but also with friend's kids.

**EVERY MOMENT SPENT WITH KIDS FILLS US WITH THE JOY OF A BEAUTIFUL FAMILY, AND WE'VE ALWAYS DREAMED OF BECOMING PARENTS OURSELVES.**

# ALL ABOUT Mine

## A NOTE FROM KERIM

Mine is an amazing homemaker and I am so lucky because she loves cooking and makes delicious recipes. She is a blessing, not just because of this but also because she is so compassionate and takes care of our family. I would describe her as honest, a hostess, responsible, practical, and funny. She has a loving relationship with all our family and friends and would do anything to make any one of them happy. She also loves growing flowers, spending time with them, and even talking to them as if they were humans. She is not just my wife; she is also my best friend and life partner, and she knows more about me than anyone. She is going to be an amazing mother.

My mom and dad live in Turkey and visit us once a year. I also have one brother and he lives in Turkey as well. I have one niece and one nephew. I have five aunts and three uncles. I have 19 cousins. As you see, we are a big family, and we are so close to each other. We always visit Turkey once a year and when we go to Turkey, we spend time together and there are no words to describe how we enjoy these times. I have three friends as a brother, and we have known each other since high school. I can say that I have lived the most beautiful moments of my life with them after my family.

# OUR Family

♥ Kerim

My father passed away when I was six years old, and My mother raised me with my three siblings. Right before getting married, I also lost my eldest brother, and when he passed away, my nephew was only six years old. I was one of the few who understood him best because we shared the same feelings of love and loss. However, my mother raised us and my nephew in a loving family environment, never making us feel the absence of our father. Of course, my uncles, aunts, and cousins also played a significant role in providing support and assistance. I have two brothers besides my eldest brother who passed away. One is still single and lives with my mother. The other one is married and has a daughter, my niece. They all live in Turkey, and we always try to visit them once a year and my mom tries to come to the USA to visit us once a year as well. I have a friend named Hatice, who is more like a sister to me, and we have known each other since childhood. I share feelings with her that I do not share with my family, and vice versa. She is also married and has a son, whom I also see and love as my nephew. I also have two friends whom I've known since 2010, and they are like sisters to me. They are also in the USA, and together they have four children. Everyone is ready to love and cherish a new little one.

# OUR Home

We live in a great neighborhood, and we have very respectable neighbors. Our house was built in 2022 and consists of four bedrooms, a living room, and three bathrooms. We have an empty bedroom that we can't wait to decorate as a nursery. Since the entrance to the site has a private card access system, it is a safe place for children to play. We can hear the joyful and playful sounds of children playing on the street or in their gardens, and all the family members living on the site respect this. Our backyard is also very suitable for children to play and to spend some family time, and we wait for the day when we'll have a little one to run around and play with in this yard.

Muzur 

We have a cat named Muzur and she is the center of our world. She is only 16 months old, and she is so gentle and good with kids.

**WE CAN SINCERELY SAY THAT OUR HOME IS A PEACEFUL, LOVING, SAFE, AND JOYFUL PLACE AND THE PERFECT PLACE TO RAISE A CHILD.**

Thank  
you

Thank you for taking the time to get to know our family. We promise to cherish and love your child with all our hearts and souls, and provide a safe and happy home. We will do everything in our power to provide a life for her with every opportunity possible. Whatever decision you make, our hope is that you are filled with peace and love.
