

Meet Rani...

# hello!

Thank you so much for taking the time to learn more about me as a potential adoptive parent for your child. I sincerely admire your courage in considering adoption.

I always wanted a family for as long as I can remember. I always envisioned myself raising a couple of children and providing a loving home. I was not able to have children, so I am extremely grateful that my path to motherhood is through adoption.

In fact, I adopted my daughter Rose about a year year ago. I absolutely love being a mother. And I am excited about the possibility of welcoming another child into my life and growing my family. They will be so loved and appreciated!

I hope you can get to know me a little bit through my profile book and see if you can envision your child in our family and home that is full of love, laughter, fun, and support.

## What I Love About Being a Mom

- I love getting to nurture and love my daughter everyday. Being a mom has brought me so much joy.

We love being outdoors and spending time with family! We spend many days and weekends traveling to my nieces' basketball and soccer games, or watching baseball games. We all love hanging out together at my parents' house or my aunt's house.

At home, we enjoy playing outside and swinging on our swing set. I love to garden in the summer and look forward to fresh tomatoes and lettuce that I grow myself.

I enjoy cooking. I am always baking or making homemade pasta. My homemade ravioli are always a hit for Christmas dinner! I can't wait to cook and bake with my kiddos as they grow up, and pass along our family recipes!

Our favorite vacation spot is the beach. Every year, we travel with all my cousins to the beach (about 20 of us). It's always a fun time!

For Fun!

# My Family

I have a very close-knit family. In fact, we all live on the same street in the town where I grew up!

My parents, Patty and Eric, are wonderful grandparents and I am very fortunate because they are the ones who will care for the little ones when I go back to work.

I have one brother, Jesse, who is married. He and his wife Tara have two daughters, who I ADORE! We are all a big part of each others lives and love doing things together.

I am also close with my Aunt Nancy, who lives on our street too! We all visit often and have dinner together every Sunday.

They CANNOT WAIT to welcome another little one into our family!

- Hi! My name is Rose!
- I will turn one soon and can't wait to be a big sister!
- I am a happy-go-lucky girl and want to be around people all the time.
- I love playing with my cousins and our dog Nutmeg.
- My favorite food is broccoli!
- I will make a great big sister because I love everyone and will be a great teacher to a younger sibling.

# Cousins!

We are super close with my two nieces, Harper and Gracie.

They live right across the street from us, so we spend lots of time with them and are involved in a lot of their activities.

They love having a little cousin and love going to the park and other fun places with us. We also love having them over for sleep overs and movie nights!

They are so great with Rose and are SO excited to have another baby cousin to take care of and play with!

My family gets together for every holiday and we take turns hosting, so Easter is always at my house.

We all spend Christmas eve at my parents. I make homemade ravioli for dinner, which is a family recipe that I learned from my Italian grandparents and aunts.

Christmas day, the kids open gifts and we all have a big breakfast at my house. We also love to bake and eat lots of Christmas cookies!

Some of our favorite summertime traditions are having family picnics, making s'mores by the fire and going to parades in town!

I am excited to share these traditions - and make new ones - with another child!

# My Home & Neighborhood

We live in a one-story brick home that I remodeled from top to bottom. I had fun creating an inviting home for my new family. :)

I live in the same neighborhood where I grew up. My house was built by my great aunt and uncle, where I spent a lot of time with my aunts learning how to make cookies. And now I make the same cookies in my kitchen!

We live right next to the woods, where we love to go for walks and see deer and other wildlife!

My town is small and close-knit. We have good schools and great youth sports programs. I even coach little league. I can't think of a better place to raise a family!

I have a strong support group of friends. They are always there for me no matter what.

Most of them have children also, so we love getting together for dinner or to hang out with all the kids. We also go on adventures to travel and see new places.

We are always visiting and celebrating special events together. I've become an honorary aunt to their kids, and they also are to mine. So your child would have a big wonderful support system of aunts and built-in best friends.

# Closing Thoughts

Thank you again for taking the time to learn about me. I hope you can see that your child would be welcomed into a close-knit family that will love and support them.

**I promise** to be there for your child, through the good and the bad.

**I promise** that I will be a strong advocate for them and will always put your child first.

**I promise** to provide updates and photos, if you wish. We do this with Rose's birth mother regularly.

**I promise** that your child will always know how much you loved them and sacrificed for them.

Sending you much love and peace,

*Rani*
