

JESUS & NANCY

Hello + Thank You

Hi there!

We are so very excited to begin the journey of adding to our family. We would like to say thank you for taking the time to consider us. Adoption has been in our hearts for a very long time and is something we knew the Lord would guide us through. We hope to bring joy, unconditional love, care, and most importantly support as we become parents to a new little one. As exciting and hopeful as our hearts feel, we can only imagine the many emotions and challenges you are dealing with as you consider your decision. We are incredibly inspired by your courage and strength. We are continuously praying and rooting for you in this journey as well. We hope to be an answer to your questions and want to be part of your story. We remain hopeful that you will choose us.

Jesus
& Nancy

Jesús and Nancy's story began when they were teenagers. Nancy was a close friend of Jesús' sister and spent a lot of time at their home. She loved chatting with Jesús' father, and his family quickly grew fond of her, secretly hoping she would one day be part of their family.

At first, Jesús saw Nancy only as his sister's friend, but that changed when his sister officially introduced them. They started spending more time together, and their connection grew. What began as casual outings turned into something deeper, and before they knew it, they had fallen in love. Jesús' family was overjoyed -the girl they had already welcomed into their hearts was now truly part of their family.

THEIR HEARTS AND
HOME TO A CHILD.**

Nancy had always dreamed of becoming a mother. From a young age, she imagined the warmth of a baby's embrace, the joy of bedtime stories, and the pride of watching her child grow. But life had other plans. Her journey began with hope, as she and her husband eagerly tried to conceive.

When natural conception didn't happen, they turned to in vitro fertilization (IVF). Each cycle was filled with anticipation, each failed attempt with heartbreak. The doctors reassured her that persistence could lead to success, but after multiple rounds, the emotional and physical toll became overwhelming.

Nancy had already faced one of life's toughest battles—cancer. The diagnosis had been a devastating blow, forcing her to undergo aggressive treatments that left her body exhausted. But she was a fighter. She overcame the disease with unwavering strength, believing that once she was in remission, she could still achieve her dream of motherhood. However, the toll on her body had been greater than expected, and her ability to conceive naturally had been severely impacted.

BEGINNING. JESUS
AND NANCY ARE SO
EXCITED TO SEE
