

Brandon & Jenni

Hello + Thank You

Hi there!

We cannot begin to imagine the immense love and strength it takes for you to make such a profound decision.

First, we want to express our deepest gratitude to you for considering us to raise your precious child. We know this journey is not an easy one, and we honor your courage, your heart, and the sacrifice you're making.

Our path to becoming parents has been filled with challenges, including years of struggling with infertility. After facing many heartaches and disappointments, we have learned that the most beautiful things in life are often the ones we must wait for and work hardest to receive. Our longing to become parents has only deepened our desire to offer a child a life filled with endless love, joy, and support.

While we may not have experienced the journey of pregnancy ourselves, we know the journey of parenthood is not defined by how a child is brought into

the world. What matters most is the love and devotion we offer them every single day. We promise that your child will know a home filled with warmth, laughter, and an abundance of love.

Brandon and I met in college in 2012 through a mutual friend. I was actually not interested at first but he was persistent and I'm glad he was! We married in 2017 and have been living the dream together ever since. I'm thankful that I am married to my best friend and have a partner to navigate all of life's crazy times.

Through college, first jobs, first homes, first pets, we've been through a lot together - good and bad. Life has not always been easy or certain, but just like Brandon was in the pursuit of me, we have been persistent in the things in life that really matter to us. We have finally settled down in our forever home. We have both finally settled into our careers. We are still hoping to finally settle down at the end of a long day with cuddles from a little one. We hope to fill our home with more love and memories in the years to come!

Brandon and I
always strive to find
joy in the journey
and quiet in the
chaos and believe
that God's timing is
the best timing.

ALL ABOUT Jenni

A NOTE FROM BRANDON

My wife is an extraordinary woman. One of the things I love most about her is her determination and motivation, as well as her ability to let loose and be so fun and silly. I know these attributes will follow her into motherhood where she will teach our child to live life with the same fierceness and happiness as Jenni does everyday. Jenni is also an animal lover. Through her work as a veterinarian, it is easy to see that Jenni has a big heart and a lot of love to give.

ALL ABOUT

Brandon

A NOTE FROM JENNI

My husband is the most patient, kind, and selfless person I know. He is slow to anger and quick to forgive. He is always making sure I am cared for and happy. One of the things I love most about him is the slower pace at which he lives life. His gentle and easy-going attitude to life helps keep me grounded and calm. He also loves to help people, which he demonstrates everyday in his work as a police dispatcher. Brandon prefers to spend his free time outside or working on different projects. He will be a wonderful father and I cannot wait to take this next step together.

OUR Family

Both of our immediate families live in the same state as we do, with Brandon's family living on the same street as us, so we have a good support system close by! Both Brandon and I have several nieces and nephews that we love to pieces, with the oldest being 18 and the youngest being just a few days old! We cannot wait to add to this crazy bunch with our own little one!

OUR Friends

We do a pretty good job of staying in touch with our friends even though some live in different states. This just means more excuses to travel to go visit! Whether it is old friends, new friends, work friends, or school friends, when we get together we like to have a good time. Some activities we do together are go to Disney World, go hiking, go to the movies, or watch sports.

**WE ARE LUCKY
TO HAVE SO
MANY
WONDERFUL
PEOPLE IN
OUR LIVES!**

We built our dream home in 2023 on fifteen acres of inherited family land. We live down a gravel road with only a few other homes. While it sounds very rural, we are only an hour and a half from a really big city and only forty-five minutes from a major university. We enjoy taking walks in the evening along the gravel road. It is very peaceful and safe. Our home has a lot of space for relaxing inside or playing outside.

Our home is ready for all the memories to be made.

OUR Pets

Probably the best thing about our home are our two dogs, Chesney and Millie. They are medium sized dogs and mean the world to us. While they are a little skittish at first, they warm up quickly after a few treats and gentle pats. Whether it is running around in the backyard or cuddling on the couch, these two would make a great companion to a tiny human.

Thank
you

We hope this book provided some insight into what life will look like with us. We are honored beyond words to be considered as potential parents for your child. Please know that if chosen, they will be surrounded by unconditional love, support, and joy every day.
